PROFESSIONAL SUMMARY

Mobile Application Developer with 3+ years of experience building production-ready applications using Flutter for Android and iOS. Strong foundation in mobile architecture, state management, performance optimization, and real-world app deployment. Currently transitioning to native iOS development at a junior level, with hands-on understanding of Swift fundamentals and iOS app structure. Fast learner with proven ability to adapt quickly to new technologies and deliver reliable, maintainable mobile solutions.

TECHNICAL SKILLS

Mobile Development: Flutter (Android & iOS), Mobile App Lifecycle, Responsive UI
State Management: BLoC, Cubit, Riverpod, Provider
Architecture: Clean Architecture, MVVM, MVC, SOLID Principles
iOS Development (Junior): Swift Basics, Xcode, UIKit / SwiftUI Concepts, MVC/MVVM
Backend & APIs: RESTful APIs, Firebase, Supabase
Local Storage: Hive, SQLite, Shared Preferences, Offline-First Systems
Tools: Git, Agile/Scrum, App Store & Play Store Deployment
Languages: Dart (Advanced), Swift (Beginner), Java, Kotlin, Python

PROFESSIONAL EXPERIENCE

Flutter Developer (Sole Mobile Developer) Apr 2025 – Present
Innovation Stars Beni Suef, Egypt

- Designed and developed multiple production mobile applications across POS, parking, healthcare, and business management domains
- Implemented offline-first architectures with local caching and reliable data synchronization
- Built role-based access control systems and business workflows for enterprise usage
- Collaborated with stakeholders to translate business requirements into scalable mobile solutions

Flutter Developer 2024 – 2025
Simple Galaxy Software Company Beni Suef, Egypt

- Developed cross-platform mobile applications using Flutter, Firebase, and REST APIs
- Applied Clean Architecture and MVVM patterns to improve maintainability
- Participated in full app lifecycle including testing and store deployment

Freelance Flutter Developer 2022 – 2024
Remote

- Delivered mobile applications for car rental, education, and POS systems
- Focused on performance optimization and user-centric design

KEY PROJECTS

Parking Management System – Smart parking app with QR code scanning and POS printing

Wafy Restaurant POS – Tablet-based restaurant system with offline menu caching

Dr. DrugJo Medical Platform – Multi-role medical information system

Invotek Management App – Company management and invoicing solution

EDUCATION

Beni Suef University of Computer and Artificial Intelligence 2020 – 2023
Bachelor's Degree in Computer Science Beni Suef, Egypt

ADDITIONAL INFORMATION

ACPC (Arab Collegiate Programming Contest) Participant

Strong problem-solving skills, fast learner, adaptable to new technologies
