## Profile

---

Computer Science graduate from Misr International University, specialized in Data Science with a Cybersecurity minor. Ambitious, quick learner with strong time management, collaboration, and proactive skills, seeking to grow in a dynamic, challenge-driven organization. Moreover being always passionate about technology and eager to apply my skills to contribute to innovative and impactful projects in the field of Cyber Security and web development.

## Technical Skills

---

- Programming Languages: PHP, JavaScript, C + +, HTML/CSS, java
- Databases: MySQL, MongoDB, Oracle Apex
- Tools AND Platforms: Kali Linux , Ubuntu, Odoo, Git, Power BI, PhpMyAdmin, GitHub

## Education

---

**Misr International University**, Bachelor in Computer Science, Major of Data and Information Science with Minor of Cyber Security 2021 – 2025

- **Coursework:** Digital logic design, Programming, Computer networks, IT Security

## Experience

---

**Information Technology Internship**, Wadi Degla Clubs | Cairo, Egypt Aug 2023 – sep 2023

- Throughout the program, exceptional dedication, commitment, and a strong work ethic were demonstrated. Actively participating in various projects, valuable skills and experience were gained, which will contribute to future success.
- Technologies : FortiGate Firewall, Palo Alto, Cisco switches and routers configurations

**CISCO course completion**, CISCO Network Security course sept 2024

- Has successfully completed the CISCO NETWORK SECURITY training program hosted by Misr International University
- Has claimed a certificate of course completion mentioned all the skills learned.

**CISCO course completion**, CISCO CyberOps Associate course sept 2024

- Has successfully completed the CISCO CyberOps Associate training program hosted by Misr International University
- provided certificate of course completion mentioned all the skills learned.

## Projects

---

**Cyber Security Awareness Training Platform With Simulated Attacks** [github.com/labib52/Graduation](https://github.com/labib52/Graduation)

- This project presents the development of CyberWise, a next-generation cybersecurity awareness training platform that combines interactive learning with practical, hands-on experiences. The platform delivers structured courses, quizzes, and simulated attack scenarios across web, network, wireless, and Forensics . Users gain practical skills by engaging with virtual machines simulating offensive and defensive cybersecurity exercises.
- Tools Used: PHP, Javascript, Css, PHP my admin (database)
